PROFESSIONAL SUMMARY

Recent CS Engineering graduate (CGPA 8.5) with hands-on experience in Python, full-stack development, NLP, and AI automation. Built AI-powered web applications through 3 internships and personal projects, including resume analysis and automated content generation systems. Skilled in developing scalable applications, integrating AI APIs, and delivering user-focused solutions. Seeking an AI-integrated Full Stack Developer role to contribute to innovative projects and grow across software development and artificial intelligence.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript

Frameworks & Libraries: Django, Django REST Framework, FastAPI, ReactJS, Bootstrap

Databases: MySQL

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel, Google Colab

Concepts: REST APIs, NLP, OOP, MVC/MVT Architecture, Prompt Engineering, LLM Integration

EXPERIENCE

Developer Intern · SocialMM · Chennai, Remote

Dec 2025 – Feb 2026

- Developed and shipped frontend and backend features for a live production web application, improving responsiveness and user experience across critical flows.
- Diagnosed and fixed 10+ bugs across the full stack, reducing reported issues by ~30% and significantly improving application stability during the internship period.
- Collaborated in agile sprints with cross-functional team members, participated in code reviews, and gained hands-on exposure to CI/CD workflows and real-world deployment practices.

Python Development Intern · Cognifyz Technologies · India (Remote)

Sep 2025 – Oct 2025

- Solved real-world Python programming challenges, improving debugging, data handling, and algorithmic thinking.
- Implemented clean, modular Python code following best practices.

Python Full Stack Intern · Kottiravai Enterprises Pvt Ltd · Puliangudi

Jul 2025

- Built an AI-powered PowerPoint generator using Python and LLM-based automation, reducing manual slide creation effort by ~70% and enabling faster internal content delivery.
- Designed prompt engineering templates that allowed non-technical users to produce structured presentations from plain-text input with zero manual formatting.
- Managed full development lifecycle using Git and GitHub — feature branches, pull requests, and version history — ensuring clean, traceable collaboration across the team.

PROJECTS

AI-Powered Resume Analyzer & Job Matcher · Python · FastAPI · NLP · TF-IDF · Sentence Embeddings

- Built an end-to-end REST API that parses resumes and scores them against job descriptions using TF-IDF and sentence embeddings, achieving ~85% matching accuracy on internal test cases.
- Generated automated skill-gap reports with ATS-friendly keyword recommendations, providing candidates with actionable insights to improve their application success rates.
- Exposed the full analysis pipeline via FastAPI with structured JSON responses, enabling seamless integration with any frontend or third-party client application.

Lumina – AI Travel Connoisseur · JavaScript · HTML/CSS · Vite · AI API

- Designed and deployed a premium AI travel assistant generating vibe-based destination recommendations and curated itineraries by integrating advanced AI model APIs based on user mood and preferences.
- Reduced typical itinerary planning time from hours to under 60 seconds; deployed on Vercel with sub-2s load time and a fully responsive, cross-device compatible UI.

AI-Powered Presentation Generator · Python · Flask · LLM API Integration

- Built a Flask web application that accepts plain-text input and automatically generates fully structured, professional presentations using LLM API integration.
- Engineered dynamic prompt templates to control slide structure, tone, and content layout, enabling non-technical users to produce polished decks in seconds.

EDUCATION

B.E. Computer Science Engineering · University College of Engineering, Dindigul CGPA: 8.5 | 2022 – 2026

HSC · Adarsh Vidyalaya Matric Hr. Sec. School, Tenkasi

GPA: 9.0 | 2020 – 2022

SSLC · Adarsh Vidyalaya Matric Hr. Sec. School, Tenkasi

GPA: 9.8 | 2019 – 2020

CERTIFICATIONS & ACHIEVEMENTS

- Software Engineer Certificate – HackerRank · Jul 2026
- Technology Job Simulation – Deloitte (Software Development & Problem Solving) · Dec 2025
- Complete Python Programming: Basics to Advanced – Udemy
- Robotic Process Automation (RPA) Foundation – Naan Mudhalvan
- CGPA 8.5 / 10 · No Arrears · With Honors — B.E. CSE, 2026
